MESSAGE

Homeland Security is indeed a prime concern of the country. Considering the challenges to national security and public safety from different quarters and corners, it is essential that along with the political leaders, law enforcement officials, security practitioners etc., the academia and public spirited persons join hands in putting their minds together and see how best we can move forward. In this context, the International Exhibition and Conference proposed to be undertaken by Global Security Asia (GSA) Exhibitors Pvt. Ltd of Singapore and UK is indeed a welcome initiative.

I wish the events all success.

(A.S. Gill)
