Global Security India 2010 – An Unqualified Success!

New Delhi, 26 May, 2010 – Global Security India 2010, the dedicated Homeland Security event which focused on the Indian Sub-Continent addressing counter-terrorism and the challenges facing both the Federal and State Governments, ended with VIP delegations, trade visitors, and exhibitors expressing a high level of satisfaction at the launch Event.

With India's Homeland Security budget set to increase annually over the next decade, GSI 2010 presented the Ministry of Home Affairs and their Agencies with a unique opportunity to evaluate the latest equipment and systems being showcased that meets their operational requirements and also further strengthen their security infrastructure.

One of the major highlights of the 3-day event was the attendance of many high-profile Homeland Security Government officials from the Federal Government and many Indian States who aside from visiting the Exhibition also participated in the Technical Conference where many prestigious Speakers presented Keynote addresses to the assembled delegates.

In his Opening Ceremony address, Shri Gopal K Pillai, the Union Home Secretary, Ministry of Home Affairs, Government of India, highlighted the challenging environment facing India and very much appreciated the latest technologies that were being showcased which will greatly help his Ministry and relevant Agencies to evaluate their future requirements.

Leading names and Cutting-Edge Technology

Despite the volcanic eruption and travel alerts, the exhibition achieved an excellent turn out. With over 50 companies from 13 countries, the event opened with much anticipation from the VIP delegations and trade visitors. Leading bellwether companies including Israel Aerospace Industries, MILSYS, EADS, Motorola, General Dynamics, Steria, Glock, Kommlabs and Smith & Wesson displayed their latest technologies and products to counter the latest terrorist threats. State-of-the-art products such as Infinova's V1770 Series 1.3 megapixel dome camera, AOptix Technologies' Iris Recognition System, Sagem Securite's CTX 9800 DSI Clarity Data Acquisition System and Global Security Technologies' GST-ID Card were demonstrated to the influential audience.

Andrew Marriott, Managing Director of GSA Exhibitions Pte Ltd & MMSEI said in his Welcome Speech that the procurement of vital equipment to combat current threats, together with associated training was now a high priority within the Government. Programmes have already been initiated to further enhance the capabilities of the Indian Police and Paramilitary Forces together with the relevant Homeland Security Agencies. Security budgets have increased and will continue to increase over the coming years in order to further enhance the nation's security against potential threats.

The next Global Security India (GSI) event is planned to be held once again in New Delhi in 2011. It is the organisers' mission to further increase and enhance the GSI Series as the premier and undisputed Homeland Security Event in India.

About Global Security India 2010

GSI 2010 is India's premier and dedicated Homeland Security exhibition and conference. The Event will be highly focused on the Indian Sub-Continent and will address the terrorist threats facing the Federal and State Governments. The 3-day Event will facilitate the entry of international exhibitors into the Indian Homeland Security market in India. The Exhibition will showcase the latest technological solutions covering areas such as Security Screening, Biometrics, Land, Air and Sea Security, Cyber Security, Critical infrastructure Protection, Intelligence and Training Methods, CBRN Threats, Surveillance and Security Risk Management.
